(Note: This is sample essay)

Traffic jam is a common affair in the big cities and towns. This problem is the result of rapid growth of population and the increasing number of vehicles. Most often this problem occurs in the congested areas where the roads are very narrow.

However, authorities can solve problem by adopting some measures. Well planned spacious roads should be constructed. One way movement of vehicles should be introduced. Traffic rules should be imposed strictly so that the drivers are bound to obey them. Sufficient traffic police should be posted on important points. Unlicensed vehicles should be removed.

After doing all these things we can hope to have a good traffic system for our easy and comfortable movement.
