(Sample)

When I imagine my future, I see myself as a successful person. I have many aspirations as to what I want to achieve. I hope to leave an impact on this world for future generations. My first goal, which is shared by my parents, is to go to university.

Another plan I have for my future is my occupation. I think that I would like to be either an engineer.

My last goal concerns my mark on this world. In my life, I hope to accomplish something memorable. I do not wish to be famous, for fame comes at a price. I just want to do something beneficial to someone or something and be recognized for it, if only briefly. An example of what I'm talking about is, say, an improvement to a scientific tool, or making plans for an eco-friendly factory of some sort. Things of that sort of magnitude is what I hope to accomplish. I want to be able to look back on my life and feel that I contributed something, however small, to this world for future generations.
